MCAS Letter & Data Collection

Dear Parents and Carers,

From this year we will be using **Bromcom's "My Child at School" (MCAS) App** for our data collection at Kingstone & Thruxton Primary School.

What is the "My Child at School" App?
The Bromcom "My Child at School" App is a secure online platform that will allow you to access important information about your child's education. It will provide a convenient way for parents to update essential data, including admissions information, medical details, and contact preferences.

How will this affect you?
To ensure we have accurate and up-to-date information, we will be using the MCAS app to collate data regarding your child's admissions and other relevant details. You will have already received a secure login for the platform, allowing you to manage and update your child's information as needed. This system is designed to make the process more efficient and transparent for both parents and school staff.

Why is this change happening?
This update is part of our ongoing efforts to modernise school operations and improve the efficiency of communication between parents, teachers, and school administration. The MCAS app will also enhance data security, ensuring that all information is protected and easily accessible to you in one central location.

What do you need to do?
We kindly ask you to log in to the MCAS app update your child's information. If you encounter any issues or need assistance, please feel free to reach out to the school's administration team on 01981 250 338.

We are really excited about the improvements this will bring to our school community and very much hope it will be a smooth transition.

Thank you for your continued support.

With best wishes

Amy Preece

Head of School
